MAUA BANK

191 & 193 CALLE CANGALLO.

The Offices of this Bank having been removed to the above spacious Building, in order to suit the increasing flow of business, the Public is informed that the following transactions are carried on in currency and specie in this Bank:—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities, approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current, bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of cheques, part or the full amount, at their wish, save when the quantity exceeds three hundred doubloons, or one hundred thousand dollars currency, in which case forty-eight hours' previous notice is required to be given to the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta. Fé, Salto Oriental, Paysandu, Rio Janeiro, and other places in the Brazils, England, and France, as also on other places, of which due notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions, within the orbit of banking operations.

The Establishment is always open from 10 a.m. till 3 p.m.

NOTICE

TO THE
IRISH RESIDENTS IN BUENOS AYRES.

We, the undersigned Trustees, appointed by the late Rev. Anthony Fahy in the year 1851, feel ourselves at length enabled to carry out the intentions of the deceased, and to have matters satisfactorily settled relative to the property he transferred to the Irish Catholics in this city, in Calles Tucuman and Rio Bamba.

For this purpose, we invite all the Irish Catholics resident in the Province of Buenos Ayres, who should be interested in this matter, to

Bristol's sarsaparilla

Is prepared in the most scientific manner, by thoroughly educated chemists and Druggists, who have had many years' experience. It is not a simple extract from one article, but is compounded of extracts from a number of Roots, Herbs Barks, and Leaves, all of which are possessed of some particular virtue or power in curing the diseases that have their source in the blood and humors; these different vegetable extracts are combined in such a way as to retain, in so full strength, the special curative virtue possessed by each. The root of the Sarsaparilla plants found in Honduras, is that which we use in this preparation; it is the kind which all medical men esteem most. About fifty per cent. of Bristol's Sarsaparilla consists of the concentrated extract, the remainder, as above stated being composed of extracts from other powerful cleansing and healing vehetable substances. It does not contain any thing that is dagerous or injurious to health, and in this, as in nearly every other respect, is entirely different from all other preparations sold under the name of Sarsaparilla.

By having our own agents at the places where the various roots, drugs, herbs and plants, composing our medicines, are produced, we are enabled to exercise that constant care in selection which insures uniformity of excellence, and we spare no money and no effort to procure the best—and only the best—of every article entering into their composition; and it is with the most abiding confidence we say, to be sick of all nations and all countries, that, in Bristol's Sarsaparilla you have a remedy more reliable than any before offered to you, and which will no disappoint syou in the cure of

Scrofula or King's Evil,
Female Derangements,

& Dumb Ague.

As a means of building up the consiitution that has been broken down by the excessive use of Mercury, Iron, or other Minerals, our Sarsaparilla will be found most excellent, and can be administered with safety to the weakest patients. As a purifier of the blood and humors, in the Spring and early Summer, it will the found unfailing. It can be taken freely at seasons, rainy or dry. For some of the above diseases, the use of the Sarsaparilla must be continued a considerable time, especially for those that are hereditary or constitutional in their nature—such as Scrofula: but a faithful compliance with the directions will always relieve and mitigate, and in a great majority of cases will effect a complete cure. It will also be found, in all of the above diseases, that a cure will be greatly hasted by using our Bristol's Sugar-coated Pills, in moderate docs, in connection with the Sarsaparilla; they carry off large quantities of morbific or diseased matter set free in the system by the Sarsaparilla, and in this way facilitate the return to ormal functional operations. —cj— 46

GOVERNMENT MORTGAGE BANK

Offices—111 CALLE SAN MARTIN.

This Bank will be open to the Public on all business days from 10 a.m. to 4 p.m.

It advances on real estate to be repaid at long dates.

It pays Mortgage Certificates (Cedulas Hipotecarios) for the amount of the loan it advances, which bear an interest equal to that collected by the Bank.

The value of property offered in mortgage shall not be under two thousand patacons, nor the loan be less than 500 duettes.

No loan can exceed half the value of the property mortgaged.

The Mortgagor shall bind himself to pay an annual sum so long as the mortgage lasts, said sum to represent the interest on the sum lent the amortization fund and commission to the Bank. This yearly sum shall be paid quarterly or half-yearly.

Series A—Quarterly.

Mortgage for 20 years 117 days, 8 per cent. interest, 2 per cent. amortization, and 1 per cent. commission.

Series B—Quarterly.

Mortgage for 27 years 270 days; 8 per cent. interest, 1 per cent. amortization, and 1 per cent. commission.

Series C—Half-yearly.

Mortgage for 20 years 190 days; 8 per cent. interest, 2 per cent. amortization, and 1 per cent. commission.

Series D—Half-yearly.

Mortgage for 28 years 5 days: 8 per cent interest, 1 per cent. amortization, and 1 per cent commission.

Upon the full payment of the yearly sums stipulated in the Mortgage, both property and Mortgagor shall be freed from all further obligation.

The Mortgagor shall be at liberty to anticipate the payments and to discharge the mortgage, all or in part.

Applications for mortgages must be made in writing, specifying the property offered, accompanied by the title deeds, the receipts of the Contribucion Directa tax, and setting forth that the property is free from all incumbrance, or if not the incumbrance that exists thereon, and which is to be paid off by the mortgage. The Secretary of the bank will supply applicants with the forms necessary as also the tables for amortisation.

Quarterly mortgagers shall pay from 8th to 15th of each January, April, July and October, and half yearly mortgagors shall pay between the 8th and 15th of each January and July.

With the amortization fund, mortgage certificates (cedulas) shall be redeemed at par by quarterly and half yearly drawings.

The mortgage Bank pays the interest on the quarterly cedulas or mortgage certificates between the 31st December and 6th January, the 31st March and 6th April, the 30th June and 6th July, the 30th September and 6th October every year, and on the half yearly cedulas from the 31st December to 6th January, and from 30th June to 6th July.

The Mortgage Bank can act between the capitalist and mortgagor, free of charge in the way of realizing the cedulas, and for this purpose will receive deposits without interest, which will receive a preference, and which sums will be deposited in the Provincial Bank.

On and after the 15th February 1872 the Mortgage Bank will be open to the public.

Ferruginous Gin.

ANALYSIS
BY
Professor Kyle.

The Iron exists in the form of a protosalt, one fluid ounce of the Gin containing 3-10ths of a grain of Protoxide of Iron. The Ferruginous Gin may therefore take its place amongst chalybeate preparations, and be employed with advantage where the administration of a tonic alcoholic stimulant is indicated.

UCLERS, like Volcanoes, are fed from below the surface. It would be useless, even if it were possible, to put a cover on Vesuvius, as it would be equally futile to skim over a deep-seated ulcer. Nothing short of 'extinguishment' will cure an ulcer. The only way to come at the 'hidden fire' is through the blood, and the only anti-phlogistic agent that will do its work thoroughly is Bristol's Sarsaparilla. By what chemical action it neutralises the venom which produces eruptions, sores, abscesses, tumors, carbuncles, and the like, it is impossible to say. Enough for the sufferers that it gives relief and never disappoints their hopes. cj—m14

A General Meeting of the Promoters and Friends of the St. Patrick's Society is called for the 16th inst.,

SUNDAY NEXT,
At the hour of ONE O'CLOCK.
AT 48 CALLE RECONQUISTA

The following Circular is addressed to all who sympathise with the movement. They are respectfully requested to accept its publication, as if distributed individually.

By Order.

Buenos Ayres, March 10, 1873.

SIR,

The Irishmen in the Plate are about to organise a Mutual Benevolent Society, to be called the **St. Patrick's Society**, without any religious or political distinction. The objects of the Society are as follows:—

To foment Irish Emigration to the Plate.

To protect and assist the Irish Hospital, under charge of the Irish Sisters of Mercy.

To organise a Club-room or Reading-room, where Irishmen can meet.

To make an effort that the son of an Irishman, born in this country, or a naturalised Irishman, be elected Deputy to the Provincial Chambers, to represent Irish Camp interests.

The Subscription will be only $10 m|c. per month, and the Bye-laws drawn up on the most liberal scale. May we invoke your sympathy for the cause, and the aid which your name will afford to our Society.

We have the honor to be,
Your humble servants,
EDWARD T. MULHALL,
THOMAS DUGGAN.

Argentine Mercantile INSTITUTE

207—CALLE PERU—207
Buenos Ayres.

Director, Juan Maria Gutierrez.
President, Agustin Drago.
Vice-President, Leonardo Peyrera.
Treasurer, B Mitre y Vedia.
Secretary, Daniel Maxwell.
Vocales, Belesario Roldan.
Do. Juan Lanusse.

The undersigned, duly authorized by the Directorship of the Argentine Mercantile Institution has the honor to inform the public that the said establishment will open on the 1st April next.

As its name signifies, the "Argentine Mercantile Institute" has for its principal object to educate youth both theoretically and practically in all branches of learning tending to a sound commercial education. Every attention will be paid to other subjects no less necessary, to make them good and honorable men and useful and virtuous citizens.

The Argentine Mercantile Institute commences fully prepared to comply with all that is mentioned in its programme, and the members of the Direction, together with the undersigned confidently hope that the public of this enughtened capital, as well as of the Camp and Provinces, even as far as the neighbouring Republic, will demonstrate practically their appreciation of so important an Institution; one that will satisfy a want long felt in this country, and which will give the most advantageous results to those who take advantage of it. The pupil when he leaves the Institution after three years studious application to the different branches of Mercantile education there taught can say that he is fully qualified to fill any commercial post, and equally assured of giving satisfaction to his superior and so advance his progress in life. As a guarantee of identity, the Institute will award to the pupil, after a satisfactory examination in all the studies that the programme expresses. A diploma in which their moral as well as mental qualities will be clearly specified. This document will serve as the best recommendation for any young man entering into business life.

The organization of the establishment, the opening of which the undersigned has the honor to announce, is most complete. The course of studies are ably directed by the most competent professors: the strictest attention will be paid to the morals of the pupils. All this together with the superior arrangements made for their board and lodging will leave nothing for the most scrupulous father of a family to desire.

The Society of the proprietors of the Argentine Mercantile Institute have not entered upon this as a business speculation, as many others have done, converting the education of youth to merely a mode of amassing wealth. Higher, more dignified and beneficial views have induced the members of this Society to work as they have done, their desire being the legitimate one of presenting the Argentine Republic with an education hitherto much neglected, and putting it on a par with the science now attained in England, France, Belgium and the United States. Whatever benefits may occur to the Institute everything will invariably be applied to its improvement so as to elevate it to the dignified position, it must hold in this progressive and always increasing community. The principal efforts of the Society for the present will be directed towards building an appropriate edifice for the school house.

The Institute will at present be established in the large house, Calle Peru 207, between Belgrano and Venezuela, a commodious edifice with three large patios, spacious saloons and well ventilated corridors. In fact everything necessary for such an establishment.

The Office of the Institute is open to the public. Hours from 12 a.m to 4 p.m.

CONDITIONS OF ADMISSION.

Boarders	$40

IMPORTANT AUCTION
BY
Delio O'Gorman

MORON, MORON!
¡MORON!

Of all the auctions up to the present in this picturesque and healthy town, where sickness is almost unknown, this one is
EXCLUSIVELY IMPORTANT.
In fact, the ground to be sold is situate in the most picturesque part of this beautiful town, at 50 varas from the station, in front of the line, where its intelligent owner intended building a magnificent palatial residence containing all the accommodations necessary in this life. The model is on view at this office, and the purchaser can carry out the plans of the present owner, who, for family reasons, is leaving for his native land.

The ground measures 372 front by 6 ½ depth, having three fronts—to the south, west, and north—first front to the railway, second to Calle Santa Adelaide, and third to Calle Rauch. Two corners, one to the north, and the other to the south.

ON
SUNDAY. 16th INST.,

This magnificent property will be sold by auction, for cash, to the highest bidder.

It is well wooded with paraisos, ready for building purposes.

The vicinity is respectable.

There are beautiful gardens.

In fact, nothing to equal it can be found.

For further particulars apply at the auctioneer's,

OF A LARGE
CENTRAL PROPERTY.

Although old it is in good condition, the buildings are all good. The locality is first class, and it is impossible to calculate its future value. It is with great regret that the owner parts with it. It is situated in the most commercial street in the city viz Calle Reconquista No 203, 205, 207, 209. The buildings occupy ground consisting of 35 varas front to the West, by 35 varas depth to the East. They contain 26 rooms more or less, the street is paved with adoquinas. It is close to the Aduana de las Catalinas, and a tramway passes close to it. The prospects of this property are incalculable. It is well tenanted, and situated in a beautiful locality.

Speculators, be on the alert

ON SUNDAY 23rd INST.
At 2 p m. sharp

By order, of the present owner who is leaving for Europe. This splendid property will be sold by auction to the highest bidder and for cash.

Any one wishing to be the possessor of a magnificent property, should not miss attending at the hour indicated. The title deeds are guaranteed, and in said street there is no property equal to it to be sold.

The Savoie's Mails.

The splendid steamer Savoie of the Bonne-mason line entered port early yesterday morning, but her mails were not delivered till the afternoon. She brings papers to the 15th from Marseilles and the 17th from Gibraltar. The following is a short summary of her news.

The advent of a Republic in Spain received very little notice in Paris; in the higher political circles it is believed that the new Republic will shortly have a civil war on hands. The Carlist, Isabella and Montpensies parties are all determined to fight for the crown, and public opinion in France is veering round to the belief that the death of Napoleon was a misfortune for the French Republic, as, while he lived, many of all parties clung round the 'de facto' Government.

The intended voyage of the Shah of Persia to Europe has been finally arranged. His Majesty leaves in April for Vienna, and will then visit St Petersbourgh, Berlin, Paris and perhaps London, returning by Constantinople.

Sr Nouvillas has been named Capt. General at Madrid. The troops fraternized with the people at Barcelona.

Mr Ayrton's motion in the House of Commons to withdraw the English representative at the Vatican was defeated by 116 votes to 63.

The address of the Prussian Bishops to the Chambers is published. It is signed by two Archbishops, a Prince Bishop, eleven Bishops, and the Catholic Chaplain of the Army.

Snow has fallen heavily in the south of France.

The Pope had a grand reception of ladies on the 14th February.

The rumour of the death of the exking of Naples is officially contradicted.

The French Minister of Finance has proposed an increase of duty on French mineral oils.

The latest news from the Havre market announces hides in demand at very firm prices. In wool business is more animated, as sellers have given way: Buenos Ayres 215-250, M.Video 220, showing a fall of from 5 to 10 centimes. Damaged B.A. has been sold at Auction 65 to 2.37-50; B. Oriental 150 to 230, according to condition. Hair is very weak, but no absolute fall to note.

REPUBLIC OF URUGUAY.

President Ellauri enters office under the most flattering auspices that Banda Oriental has known for many years. His task indeed is not an easy one, and the fluctuation of party feeling reminds us of the position of affairs when Prez. Sarmiento assumed the government of the Argentine Republic in 1868. Meantime it is impossible to look at the signs on the political horizon of Montevideo without entertaining reasonable confidence in the future. The very circumstances which led to Dr. Ellauri's election, a kind of compromise between extreme parties, forcing him to accept a dignity which is generally coveted by other men; the respectable antecedents of the new magistrate; the rise in all classes of securities; the subsidence of party spirit; all these are so many solid assurances of the maintenance of peace and order in a country so long torn by revolutions, and whose name had almost become a by-word in both hemispheres for all that degrades and demoralizes a nation.

The Montevidean papers contain a letter from Dn Jose Maria Castellanos (who belongs to the Blanco party) and the sentiments contained in it are so like what an Englishman would write in similar circumstances that it is to be presumed his views are shared by most of the respectable men of the Opposition. He says—"we have been "signally beaten in not getting Dr. "Munoz elected, but our duty now is "not to throw dirt at the new Presi-"dent, but to strengthen his hands by "every means in our power, to ad-"vance the Republic." It is not because Dr Ellauri has belonged to the Colorado party that he may not prove a wise and upright ruler; and it matters nothing whether his Cabinet be White or Red, provided the moral and material interests of Banda Oriental be advanced in the same healthy manner as we are now progressing in the Argentine Republic. Orientals of both sides are apparently beginning to see this, and the letter of Dr Castellanos may be taken as a fair indication of the fact.

The new Finance Minister, Dr. Peñalva, is in a good position to judge of the revenue, debt and resources of the country, since he has just vacated a seat at the Board of Public Credit. The Customs returns are most flattering, shewing for the short month of February more than half-a-million hard dollars ($482,154 currency), and it is believed that there are merchants willing to give the Government 7 million $ per annum for the farming of the duties on the present scale. When we call to mind that in 1864 the revenue of the Argentine Republic was only 6 millions, with a population exactly four times what Banda Oriental now counts we are struck with astonishment at the elastic resources of that little country. Nor must it be supposed that so great a revenue is simply the result of heavy duties; for if we take up Consul Munroe's return which shews exports in 1871 to the amount of 16 million hard dollars we see the produce of B. Oriental is 3 times the revenue, whereas in the Argentine Republic it is only double, our exports being about 38 millions and our revenue 18 millions.

Moreover, the increasing value of real estate in a country is an infallible sign not only of public and private prosperity, but also of increasing revenue; and since the Pacification of the Banda Oriental in April, 1872, the rise in stocks, building sites etc. at Montevideo is of unprecedented magnitude. As yet the impetus is not much felt in the Departments, where railways and police are so much needed before we can expect any notable improvement. But it is cheering to find that the railway to Santa Lucia (40 miles) has been for some time earning 15½ per cent. gross receipts on the cost of £10,000 a mile, so that, deducting one-half for working expenses, it would give 7¾ per cent. dividend to the shareholders This is more than any railway in Buenos Ayres gave in the first year, and renders the Government guarantee of 7 per cent. unnecessary. It is only three months ago since Waring Bros. proposed to make 800 miles of branches from the Central Uruguay, and as the new board of directors comprises such men as Tomkinson, Jackson, Cibils &c it may be expected they will enter into arrangements for the proposed branch lines.

An efficient police force of at least 100 men, well mounted, in each of the 13 Departments, distributed in 10 sectional picquets of 10 men each—in all 1,300 men—with smart officers, all liberally paid, say $30 each to the men and premiums for the capture of criminals: this would not cost over 60,000 a month, and the result would be a degree of security for life and property such as in any of the British Colonies. Then it would be time to talk of bringing out 40,000 English families for agricultural settlements; but if the attempt be made now, with the lawless condition of the country the issue must prove a failure. Get a strong-headed man like Colonel Bustamante to act as Chief of Police for the whole Republic, with a salary say of $20,000 fts. a year; give him a good police force and fine him 1,000$ for every murderer that may escape capture. You may be certain that in less than a year the Departments will be in the enjoyment of the utmost tranquillity, and the farmers will not want revolvers as at present.

The redemption of the currency has been a great boon to the country, and the opening of new Banks with capital brought from England and Germany is equally auspicious. The want of small notes or silver coin is beginning to be much felt and calls for the attention of the Legislature. The public debts continue to be paid so punctually that some people in Europe have lately sent out and purchased Oriental Government securities for an investment.

Light-houses and port accommodation are everyday more called for, in view of the rapidly augmenting steam trade of M.Video; the arrivals and sailings, chiefly steamers, now average 120 to 150 thousand tons monthly, and will soon come up close on Glasgow.

With all these indications of progress, with a fine climate, liberal institutions, advanced public instruction, religious harmony, abundance of capital and enterprise, superior geographical position and many other advantages the future of M.Video is not doubtful. Let President Ellauri firmly maintain the epoch of order initiated by President Gomensoro, and the country will regard the name of both as public benefactors.

CIVIL MARRIAGE IN PARAGUAY.

We have before us a translation of the decree dated Feb. 27th, of which the preamble is very lengthy and uninteresting. We therefore only extract the last paragraph:

Thirdly. And whereas one of the principal social advantages, which is practically offered both to citizens and foreigners by freedom of worship, is the facility of contracting matrimony according to the rites of the religion which they may profess, under the protective sanction of the National Legislature, and seeing that a delay in issuing the present decree would produce no good effects, but, on the contrary, would appear to justify up to a certain point, among persons outside the Catholic Church, concubinage and the corruption of that sacred basis of society which ought to exist in families, —for, in effect, it denies any legal assistance to the formation of moral bonds, and would consequently establish in the very heart of Paraguayan society a painful and corrosive ulcer:

Therefore, in a Council of the Ministers, it is hereby ordained and decreed:

Art 1st. That marriage contracted in this Republic by christians not catholics or by persons not professing christianity, provided that the contracting parties comply with the proscribed forms hereinafter stated, shall be considered valid and legal and shall produce all legal and civil rights.

Art 2nd. In order that such marriage may be valid the contracting parties must have the full use of their faculties and be without any just cause or impediment to prevent it.

Art 3. Such impediments to the validity of marriage among persons to which this decree refers are—

1. The not having attained the age required by law namely fourteen years for the male, and twelve years for the female.
2. If either party is not consenting.
3. The bonds of a former marriage not legally dissolved.
4. Having taken orders in the Catholic Church.
5. and 6. Consanguinity within proscribed limits.
7. Any preceeding adultery between the parties when such adultery has led to a divorce; as well as manslaughter or attempt or complicity in the manslaughter of either party to a former marriage.

Art. 4. Due and proper proof previously to the marriage that the parties about to contract the bonds are without any impediment must be laid before the Justice of the Peace of the district of either of the parties; and this authority will then give notice by means of Banns which shall be affixed to the door of his Court for a period of fifteen days, and which shall state

1. The Christian and surnames of the contracting parties and also of their parents.
2. The nationality, age, profession and residence of each.
3. The religion of each.
4. If one or both have been formerly married the names of their late partners must be also stated and the certificate of death or some other proof must be presented.
5. Notice to all who should know of just cause or impediment to come forward and declare it.

Art. 10. If no impediment should be alleged the Justice of the Peace will proceed to perform the ceremony in public, "pro tribunali" in the presence of two or four witnesses, male or female, relations or otherwise and shall take a declaration from the contracting parties that "they are anxious to become husband and wife". He will then pronounce "in the name of the "Law that M. and N. are joined to-"gether in legal and indissoluble wed-"lock", and will give to each party if they require it a certificate of marriage.

The remaining articles refer to the Establishment of a Register of civil marriages &c. &c.

EDITOR'S TABLE.

It rained tons of water in the city and suburbs yesterday morning. The deluge began in the small hours and continued till 8 o'clock a.m. The roads in the suburbs were flooded to an extraordinary extent, and the Terceros in town took hours to relieve themselves of the overflow. The 'daily bread' men coming into town were in a shocking plight with mud and rain; 'rushing' the floods in the tram cars was great fun. At every Tercero up went a lot of muddy, badly made boots in the air, the water sweeping through the cars with a sharp shwiiish; ladies could not indulge in this mode of escape and their poor little feet often got wet. The mud in the Plazas *was* a sight. A couple of leading wool men were nearly lost in a pantano at the South end, but some friends pulled them out by the shirt collars. Early in the morning the wind blew with terrific force, and some craft were considerably knocked about in port.

We have received from Rio a nice photograph of the late General Caldwell which we shall be happy to show our Brazilian friends, or any others.

We beg of our numerous Irish friends in the camp not to forget that the first meeting of the Saint Patrick's Society comes off at No. 48 Calle Reconquista on Sunday next. None who can do so should fail to attend, as the success of such an association as the one proposed is fraught with the best consequences to themselves, their children and their children's children.

The Manager of the Northern Railway and the Corporation are going to law on the point of the jurisdiction of the latter. Although the Northern Railway may have more than its share of 'trastornos,' and the public but too much cause to complain of it, still we are entirely with Mr. Crabtree in the matter. Many Spanish framed laws have considerable comicality about them; but if the Provincial Constitution accords to Municipalities the power of regulating railways, then the sooner the Convention now sitting stirs itself and abolishes the unheard of absurdity, the better.

Respecting the advertisement which lately appeared in this paper for Mr. Hugh Fergus, we have been informed that, if he be the same party who resided in the partido of Rojas from May, 1870, till 1872, when he removed to the partido of Pergamino, any letter addressed to him, to the care of Don Reynaldo otero, Pergamino, will find him in due course.

The prodigious land sales at Lomas de Zamora by Zavaleta and Co. are attracting great attention. Where the buyers for such small lots come from, or what they intend doing with them is a mystery. Such lots are fit for nothing but building cottages for the dozens of couples which our native contemporaries say are going to be married this month—nice little holes, with good big doors for Poverty to walk in by, and windows large enough to permit Love to slip out and avoid meeting its deadliest enemy. The prices paid appear to be 30,000 m|c. per square—really not dear in such a thriving place as Lomas.

Telegrams from the Mount yesterday announce the public health good, bar two more cases of Y. J.; but a regular 'Honduras Bond' smash has occurred in Fomento Shares—30 per cent in a couple of hours on Wednesday. Holy Moses! It is not known yet who is hurt, but some person or persons *must* have been financially skinned alive We would not touch a Fomento share with the longest tongs ever made in Birmingham.

The news from Rio respecting yellow fever is still bad. The gallant Dom Pedro continues to visit the fever hospitals regularly.

The morning papers announce a round dozen of marriages to come off in native circles before the end of the month. There is a man in town who knows everyone of the brides. Lucky creature! If they don't all live happy that the STANDARD and its subscribers may!

Mr. Bernal, ex-Lord Mayor, has been "gold medalled" by the city of Santiago de Chile in return for the aid sent to it by Buenos Ayres during the yellow fever last year.

Quite right. The wooden huts erected at Ramos Mejia during the Plague are being put in order to meet any possible emergency; and the Municipality is looking for a house or two to serve as Lazarettos. Mr. Uribellarea is keeping his eye on everything and everybody, from a wooden shanty to Mr. Henry Crabtree. His vaulting ambition will overleap itself, we fear.

Holders of Popular Argentina tickets want to know what the big prize in the Drawing to take place on the 31st will be. We trust it will be something commensurate with the number of tickets sold, and not a miserable 1,000 or 2,000 pats. as the subscribers have hitherto been put off with.

The *Republica* translates the proceedings in the English Court of Chancery 'in re' the Paraguayan Loan. The most remarkable feature of the case to our mind is the admission of the Vice-Chancellor that he could not possibly 'get on' without reading every word in the *Times* "On 'Change" every morning of his life. As for the Midshipman Easy duel between the Paraguayan Government, Messrs. Robinson and Fleming and Mr. Blyth, it is as plain as a pikestaff that the 'mill' will end in the bottom being blown out of the Loan, and every one concerned (except the lawyers) will, metaphorically and financially speaking, be left "on the broad of their backs".

Our latest advices from Honolulu announce the interesting fact that the late King Rummyhammyhow was a sheep farmer on a large scale. The Royal "estanciero" had 30,000 splendid mestiza sheep and a fine flock that would delight the eye of the late Messrs. Sheridan, and Harratt, Mr. Latham, Mr. Hannah, Mr. Casey, Mr. Bollasty, or any of our wool raising magnates. All the sheep-farmers in the Sandwich Islands have gone into 'corral' mourning for their late royal confrere.

The Santa Fe papers announce the death of Mr. William Cullen and the general grief felt at his loss. The deceased gentleman was a long time ill and for some time past his family had given up hope of his life being spared.

Bravo again my Lord Mayor! Mr. Uribellarea has turned his vigorous attention to the cattle slaughtered for public consumption and has given orders that the inspection of same shall no longer be the monstrous farce it has hitherto been. It is next to impossible to get an eatable bit of meat in town now, three quarters of the animals killed being "cansados". For this reason camp men when they come to town cannot swallow the stuff the inhabitants of the city are condemned to eat from year's end to year's end.

There is a terrific 'kick up the dust' in Cordova just now. A Mr. Joe Cornet and two other gentlemen connected with the famous Caja de Credito have been summarily laid by the heels and lodged in 'quod.' The town is in an awful ferment, and the affair threatens to take the same aspect as the Agrelo case. The deficit is 32,500 pats. Mr. Cornet's house and belongings, even to his bootjack, have been embargoed by the Police. Mr. Otero, the banker, has promised a full account of whatever his bank had to do with the matter. Nobody can tell how the money went. The Central Argentine Railway is again running regularly. Messrs. Telfener and Co., empresarios of the Cordova and Tucuman Railway, generously consented to repair the damage done to the Sarmiento bridge by the recent floods. Some body of noodles called the "Consejo Ejecutor," selected, no doubt, from the Municipality not only put a summary stop to the works for some personal object, but absolutely went the length of inventing some pretext to fine Mesars. Telfener fifty patacons!! The *Independiente* attacks this outrageous proceeding in the strongest terms. Meanwhile the bridge is in danger of falling and being destroyed. Mr. William Matti is now in Cordoba to assist Mr. Telfener in organising the most vigorous prosecution of the railway works; though they are being pushed on at a speed not usual in this country.

The War Office, the Municipality, the Capitania, "et hoc genus omne" are at present engaged in the Herculean task of finding out who it was that violated the quarantine last week by going from the Mount to Rosario and then coming down here. "Don't they wish they may catch him? He will have time to come and go a dozen times before red tape has even found out his name, much less his local habitation.

In the year 1867 an entire English family named Scott was murdered under very brutal circumstances in the neighbourhood of San Vicente, which gave rise to a curious question at law as to whether the husband survived the wife in relation to a distribution of the property. Suspicion attached to a man of English parentage named Guillermo Nuñez alias Thomas Holmes, who contrived to keep out of the way and subsequently murdered a tame Indian near Azul and stole his 'tropilla.' This man was recently at McClymont's estancia, and information to that effect having reached the friends of the murdered family, representations were made to the Police through the British Consulate, and Mr. O'Gorman at once placed an intelligent officer at Mr. Parish's disposal, and the result has been his immediate capture in the Partido of the Saladillo. The supposed murderer is a tall, powerful man, and has been well known in the neighbourhood of Lobos for some time as "el asesino," and great satisfaction is expressed by all the 'vecinos' at his capture. It does not speak much for the administration of justice in the camp districts that a man known to everybody around as a murderer should remain so long at large. It is to be hoped that the man will have a fair trial, and if proved guilty will meet the fate he so richly deserves, notwithstaud the time which has elapsed since the commission of the offence. We hear also that the police have a clue to the murderer of Peter Lickford, at Chascomus, which they are following up with proper diligence.

No mails from the Mount yesterday any more than on Wednesday; no Cordillera's mails; no telegrams worth a 'cus'; not even a 'bola' to keep things alive. It is quite clear the 'Cooter' must be chartered again. Too much news such as weekly steamers, cables and transcontinental telegraphs now so often bring us is bad enough, but no news, no mails, no steamers, nothing at all is still worse. If the state of things yesterday continue much longer we'll all get blue-mouldy, like a countryman of ours who could not exist for a week without giving or getting a good thrashing—he did not care which, so as his blood was kept circulating and his "hand in".

The latest official report of the health of the city is favourable. During Carnival there was naturally a good deal of indigestion going, and some druggists made fortunes by selling blue pill, but there is no dangerous disease of any kind prevalent. The deaths have only been 1 in 10,000 for the fortnight, but this is merely a too flattering exception to the average death rate.

The English Board of Trade has circulated notices that the steamer Herald, of Hull, while on a voyage from Hull to Dantzic, was on the night of the 10th November in collision with a large sailing-ship, resulting in the immediate foundering of the steamer, with the loss of all her crew except one man, who was picked up by a pilot-boat and landed on the island of Bornholm, and there made his deposition before the Vice-Consul. This closely resembles the case of the Northfleet, and the Board of Trade is circulating the information with the view of, if possible, learning the name of the sailing vessel, which was seen with her bowsprit and jib-boom broken, but does not appear to have offered any assistance.

There are a few people who think the land fever is pretty near its apogee. These select few base this opinion on the fact that auctioneers are now obliged to obfuscate the purchasers by offering mother earth by the square vara; by and by it will be by the square foot, and then, 'the last scene of all,' by the square inch. Metrical knowledge is now indispensable to buyers of land. We are following here in the steps of Melbourne and Bombay, where people are still living pocked-maimed for life in consequence of buying by the 'square foot' what the knowing ones were selling by the square, if not 'on the square.'

The protest of the passengers now in quarantine on board the Pavon casts a very serious responsibility on the Government. The unfortunate people are treated and fed like dogs, and only the mercy of Providence prevents some terrible epidemic breaking out on board. According to the language of their published protest they get nothing but badly cooked meat and *one potatoe* a day; the linen and bedclothes are shamefully dirty; there is not a towel for washing purposes on

board the vessel, and all the men sleep huddled in a dirty cabin without any ventilation. This is a terrible state of things, and unless the Government see to its instant amelioration worse must come of it. Why not adopt the suggestion of this paper to select some town where passengers can pass quarantine in comfort and safety?

"A truly great man, according to the idea of an old lady, is one who 'is keerful of his clothes, don't drink sperets, ken read the Bible without spelling the words, and eat a cold dinner on wash-day without grumbling." We have lots of 'great and good' men amongst our subscribers who can and do eat cold leg of mutton on wash ing day; but we cannot conscientiously say that we have any who don't 'drink sperets' in moderation. Strict teetotallers make very wishy-washy sort of men.

Our North American friends will find the following anent the late great actor, Edwin Forrest, interesting:—"Of Mr. Forrest's affairs nothing is positively known. He died possessed of considerable real estate. His property at Broad and Master streets is valuable; his farm near Frankford, which he bought from Mr. George H. Stuart, ten years ago, for $75,000; his lots at the old Fort Hill farm, on the Hudson; his Covington, Ky., property ought to foot up a considerable total, outside of his personal property. He was a fine business man, of careful money habits, and yet capable of generous actions."

A Caledonian subscriber now 'divirtiondose' in Europe writes to us that he has met hosts of River Plate friends 'knocking about' all the cities of the Old Continent. They are plenty as blackberries in Paris and Berlin, and London has its usual share of them; but what was our correspondent's astonishment to meet one of them affecting to shoot grouse on a Scotch moor, and shortly after two more at the Strawberry Beds near old Dublin, holding on like grim death on each seat of an outside car, while the "jarvey" rattled the distinguished foreigners along at fully 15 miles an hour, deaf to their prayers that he would go at a safer pace. In Edinbourgh and Liverpool numbers of River Plate magnates are also to be met with. We are glad to hear all this, as travellers are the best emigration agents this country can have.

"To call a man 'colonel,'" says a Philadelphia paper, "is to convey the idea that he is of a mild, meek, and benevolent disposition. It is also an evidence that he never was a soldier. We might mention many gentlemen of high standing who have never been in the army, and can only be called 'colonel' as a tribute to their antipathy to blood. If every colonel were a soldier, the standing army in Philadelphia would be a menace to our liberties. Their number is as great as it was in San Francisco, to which John Phœnix bears witness in the following story: The steamboat was leaving the wharf, and everybody was taking leave of friends—all but Phœnix who had no friends to bid him farewell. Ashamed of his loneliness, as the boat sheered off, he called out, in a loud voice, 'Good-by, colonel!' and, to his great delight, every man on the wharf took off his hat and shouted, 'Colonel, good-by!'"

We learn from advices per Neva that the rainfall along the Tweed during 1872 reached the unprecedented figure of 47 inches.

THE NORTHERN RAILWAY.

To the President of the Municipality.

The Manager of the Northern Railway will appeal to the Superior Tribunal of Justice against the declaration of the Municipality to the effect that it is competent to interfere in the working and affairs of Railways, persevering in its resolution to this effect, and ignoring the plea which the undersigned has entered against its jurisdiction.

Without discussing the terms in which said plea is couched, and which the Municipality objects to, I consider that I have kept fully in view the respect due to all authorities, and have confined myself to language perfectly parliamentary, while expressing my opinions frankly as befits a republican and democratic country, where servile forms of address are very properly proscribed by public opinion.

I therefore beg of the Municipality to accept freely my appeal, and send in its pleadings in the usual form, so that justice may be done.

HENRY CRABTREE,
Representative and Legal Agent of the Northern Railway.

THE POOR DREDGE.

Buenos Ayres Beach.

Dear Editors,

That machine called the Dredge had another trial yesterday, but stopped again with a large shell-fish coming in one of the bucket.

No pots sufficient on board, nor 'brains' to boil it at present.

Send to Dublin or the Clyde, and there is no mistake about the machine. The 'broths of boys' are not aboard yet to fish the tosca.

Yours,

SCREW.

The news this morning of fresh fever cases in the Mount threw a damper upon everything; people clung to the hope that the few isolated cases of the past week had passed, and that with such favorable weather and strict quarantine arrangements Montevideo would soon be declared a healthy port; but the telegram to-day defeated those hopes, and it was accepted now that until May we can look for no let up in the present state of things. In the afternoon another message came up stating that since last night three fresh cases had occurred and that the people in Montevideo were becoming alarmed. A meeting of the board of health here was held and it was generally reported that new quarantine regulations are about to be made.

For those who have friends passengers by the Neva, it will be pleasing to know that all the Neva's passengers are safe and comfortable on shore at Ensenada; they want for nothing. They were taken up by the Saposta, leaving the Neva at noon, and arriving at Ensenada at 8 p.m., where, but for the great decision of character betrayed by Mr. Milligan, the passengers would have had to remain all night on board the little steamer; but Mr. M. very properly refused to stand such nonsense, and compelled the immediate landing of all the passengers. We hear that some of the lady passengers per Arcturus had to pass the whole night in an open boat. Such outrageous treatment of passengers seems to be beyond belief. The Neva's passengers are all right, however, and supplied with everything, even Havana cigars.

It was rumoured on 'Change that owing to the very praiseworthy exertions of Mr. Trottman, the active agent here of the Pacific Steam Navigation Company, arrangements were being made to-day so that the quarantine passengers of the Chilian steamers on Flores Island could be taken off from there, and brought up direct to this port free of any further quarantine. This is a capital move.

This quarantine question has now taken precedence of everything, and even the brokers at the ring discussed the sorrows of people on Flores Island and the hulks.

Bonds to-day ruled but tolerably firm: they opened stiff enough, but one great bear wants to get down prices with a view to purchase.

The sales were—

For 31st March, 40,000 at 82⅜.

Cedulas flew up ¼ to day, and look as if going higher.

Sales—

Series A, cash, 6000 at 98.

In the Liquidation 5000 Cedulas sold at 98½, and buyers at that price.

In Bonds 25,000 sold after hours at 82⅜ for end of month, sellers.

Exchange on England ruled at 48⅞ to 49, but the former is the rate. Francs on Antwerp 5.16, and on France 5.18.

Another very important land sale was announced to-day, and in a district hitherto untouched—100 squares of land, 100x100, at Bella Vista, the proposed new station on the Rosario Railway, between Moron and Pilar and near Pilar, for 8000 m|c per square, which gives about 1,000 m|c per city square of 150x150—price unprecedented.

The sale of 11 squares of land at Merlo is announced by the broker of the sale, Mr. Florencio A. Villegas. The land is 15 squares from the station, and on the Moron highroad. Price paid for whole lot, 7,000 m|c; Don Fernando Perez seller, Messrs. Pedrio and Podesta buyers.

Messrs R. Cranwell and Co, made some large sales of real estate this day, but at reserved rates as the papers are not concluded. They hold a list of some of the finest properties in the country, to be seen at their office 43 Reconquista.

Another splendid sale of a piece of land on the Flores road was concluded to-day, dimensions not given, price 575,000 m|c, the land is not bought for speculation but for building purposes.

A portion of the well known John Smith Barraca 17x60 was sold to-day at the rate of 30,000 m|c per vara front on Calle Rivadavia.

Respecting the collision in the roads the other day, we hear that it is a serious business for both vessels, the Nina and Velocity badly damaged, the latter to the extent of 1500 pats, the other it is thought will be condemned.

The Olga did not get away to-day after all; the Brazilian steamer De Brus takes mails to-morrow, to the Mount.

The Bonita left Montevideo last night but has not since been heard of.

The damage suffered by Concordia was trifling but 35 quintals of wheat damaged.

The Montevidean telegram gave—

Fomento Montevideano 59. Progreso 58. Fortuna 25. Territorial 152. Playa 198. Home 71. Consols 89. Extraordinary 60.—No arriva's nor sailings; a lot American hides at 90, and al barrer 89; tallow 20½. Last night and to-day 3 cases fever; people frightened; Exchange 51½.

The recent large sales of building sites supposed to be at the Lomas, turn out to be in the Flores or South Barracas bañado, and the lots are sold on long credit payable in monthly instalments of 100 m|c. or all cash down with 10 per cent. disount.

Mr. Donovan sold yesterday 1,500 ar. wool at 73, 600 ar. at 70, 300 ar. at 75, 900 ar. at 81. Woo. moves.

As there is much said in the exchange market about the government taking exchange to remit to London for coupons and amortization on loans. The following respecting those loans will be found important:—

The dividends on the Riestra Baring loan, 1868, are payable 1st January, and 1st July every year.

The dividends on the Varela Murrieta loan on the 1st of March and 1st of September every year.

Therefore, when the dividends on the former are paid the coupons of the Varela loan have four months interest due on them, and the bonds should in consequence be worth two per cent. more than the Riestra bonds ex-dividend and vice-versa. When the dividends on the Varela loan are paid the coupons of the Riestra loan have two months interest due on them, and the bonds should be worth one per cent. more than the Varela bonds ex-dividend. The government has nothing therefore to take except for the July coupons which the Minister will probably take early next month, and the rumour that the Minister has taken largely for the Nigor's mails must be without foundation.

There was a great hunt this morning for the Montevidean mails as people thought they had come up in the Asia, but the mail could not be found; and the most intelligent man in the Post office could tell nothing of them. The Savoie entered early but she did not touch at Montevideo, and as for the Bonita there was nothing known of her, the postal arrangements between the two markets could not be worse, when by the least attention we might have mails regularly 3 times a week both ways.

It appears there has been another attempt to work the dredge which has not given satisfaction; a mechanic's letter to us on the subject we publish in another column.

Mr. Maximo Gowland was the auctioneer who sold the premises in the Calle Larga, Barracas, reported yesterday; the site was 31x125, with an old house thereon, for 600,000 m|c., being over 16,000 m|c per vara front—about the highest price ever paid for land on the Calle Larga, Barracas.

Parties resident in the Uruguay write that the health up there is good, and the report of fever up the rivers as published in one of the morning papers is not even spoken of. The saladero business is very backward, the weather checks the killing and the cattle in many districts are in very poor condition. Parties well up in business are of opinion that more hides are sold than can be well delivered unless the weather clears up, when the killing throughout the country can recommence with redoubled force.

The retirement of Sr. Iraola from the Board of Emigration is announced, and as yet his successor has not been appointed. It seems that the business at this office has so much increased of late that the funds of the Board are altogether in sufficient for the ordinary disbursements of the office.

The Savoie made a fine run out, and brings us another batch of immigrants. Her papers are from Marseilles to 15th, and Gibraltar 18th, but the Cordillera two days ago brought us Lisbon telegrams to 18th; consequently, except in the way of Marseilles or Gibraltar newspapers, she brings nothing very new.

The sale of lands in Lomas de Zamorra attracts much notice, and continue. These sales, it appears, are not by auction, but by private contract. Small building sites seem after all very saleable, when out in a suburban town so many small lots can be sold to different parties, and at such good prices. The following is a list of further sales which we extract from the *Republica*.—

"Messrs. Zavaleta and Carballo report the following further sales in the Bañado de Flores or South Barracas.

The following, respecting the hide market, is important—

"With bare market, and leather in request, prices of hides show great firmness. Several cargoes of Rio Grande have been sold for arrival at 9d; and 9¼d is the present quotation for Buenos Ayres.

"No immediate accession of stock being looked for, prices are likely to be maintained for a time; but we think hides are quite dear enough, especially as the Continental and many of our own tanners do not seem disposed to go into stock at the prices recently obtained here. Our quotations are now higher than those of any other market, which will, no doubt, have the effect of drawing further supplies intended for other countries. It will also stimulate shipments of salted hides from the United States, and we therefore feel somewhat dubious as to the course of prices when the new season's hides begin to arrive from South America.

"A very small excess of supply beyond the requirements of tanners might turn the scale, and if importers were to lose confidence in the stability of prices, which are now much higher than they have been since 1857, the recent advance might soon be lost.

"For the next two or three months we do not look for any material change, but towards midsummer the supply and demand are likely to be more equalised than at present, and the future of prices will in a great measure depend upon their relative proportion.

"The demand for England is not likely to fall short of last year's. The extent of the supply from South America will, of course, be estimated and known in the Plate before we can be informed of it here."

The Municipality Treasury publishes its balance sheet for the month of January which supplies some items of interest, under the category of receipts we find—

The sereno and light tax gives	493,384
Municipal rents	48,349

Lazaretto	12,547
Kerosene light	39,940
Municipal schools	171,400
Asilo Mendigos	80,000

The total disbursements amounted to over 3 millions: the other items are deposits in bank and payment of Municipal bonds. We note there is nothing in the shape of paying for gas, although the Corporation collects every month the tax from the public, and the unfortunate shareholders are compelled to wait for their dividend although the Municipality has got the money.

Mr. Salomon who so long and successfully held the Casino alongside the Bolsa has rented the once well known Watson Hotel Belgrano facing the railway station; he opens his new premises on Sunday.

The creditors of Messrs. Passarotti & Co. are summored to attend a meeting at the Tribunal de Comercio on 15th inst., 2 o'clock.

The board of Nat. Engineers calls for tenders to put up the Rio 3 bridge, the tenders to be opened on 12th April next.

We understand that application is made to the Municipality of Belgrano for a better site for the new gas works than the one already given, the application is certainly a fair one for the outlay in an establishment of that kind is very heavy, and none but the very best land should be the site; as proved by the recent flood the present site is worthless.

Roads and bridges stock is in demand; to-day there was enquiry for the stock. The emission to the present is small, but a new emission we hear will be shortly made to pay certain accounts liquidated by this stock.

Owing to the rain both markets this morning were intransitible; mud on all sides. In the Once there are several troops of carts in with wool, but no man could attempt to go near them. Why does not the Municipality pave those markets, and levy a toll on the carts if necessary? There is a little more movement in wool during the last two days, but at low prices.

The cargo of Arcturus has been unloaded by Messrs. Casares, the lighters are in quarantine; double lighterage, therefore.

The following is a continuation of the list of unclaimed goods at the Custom House—

No transactions on account of the rain.

NORTH PLAZA.

March 12th.

In the Once to-day buyers showed some more interest in wools.
Brokers will have to come down in their demands.
A variety of sales at low prices.
The opinion of those knowing is that farmers are making a mistake in not being content with present rates.
Sales as follows:—

Wool.

2000 ar. very fine woo's, various lots 80 and 81.
3000 do various lots, good wo ls, 70 to 75
2400 inferior quality 60 to 68
800 ar. lamb's woo', with carretilla, 55

Sheepskins.

300 doz camp skins, various lots, 21 to 23½ rls.
600 do camp pelados, 35 to 70.
100 do lambskins, 10 to 13.

Cow Hides

1,400 hides in various quantities, 188 to 204

Horse hides

Continues very dull.
300 hides, in small lots, 53 to 57.

Hair.

100 ar different lots, 175 to 185.

Grease.

A few lots disposed of.
200 pipes in shipping condition, 15 rls.
150 ar in pauzas, various lots, 39 to 42.
50 small casks sebo pisado, 30.

Wheat

1000 fan., various, good lots, 170 to 195.
100 do special, 215.

Maize.

240 fans. in espiga and desgrando 35 to 45.

Barley

600 fan. small lots, 35 to 43.

March 13th 1873.

The Plaza Once to-day was one complete Pantano.
The station was deserted, with the exception of a few brokers who solitarily wandered among their different piles of produce.
The wheat market is very heavily stocked and large lots continue to arrive probably to take advantage of present high rates.
Large sales of wool expected out of Depositos.
Speculators, brokers, Barraqueras seem all to agree on one point, that is the oldest of them does n't remember a season so dull as the present.
They derive a good deal of consolation from expecting to have a very busy winter.

Dupuy's Brandy.

Real Estate and Dupuy's Brandy are the two most saleable articles in this market to-day.
BARON y BRIET, the Agents, hold now both camp and town. There's no other Brandy drunk in cafe, casino, hotel, or camp pulperia; and such is the demand from the camp, that at the Plaza Once immense piles of boxes are ranged along the depositts waiting for waggons.

BEAUTIFUL HAIR

Can only be obtained by the use of Rowland's Macassar Oil. It prevents the Hair falling off or turning grey, strengthens weak hair, causes it to grow on bald places, and makes it beautifully soft, pliable, and glossy. Price 3s. 6d. 7s., 10s. 6d. equal to four small, and 21s. per bottle.

IMPORTANT CAUTION.

Ask for Rowland's Macassar Oil, and avoid all other cheap articles under the same or similar names as spurious imitations. Each Bottle has a "Glass Stopper" in place of the Cork, as formerly. All with the "Cork" are spurious imitations. This notice is deemed necessary, as the Proprietors have received intimation that a large quantity of Counterfeit, of the most pernicious quality, has lately been sent from France and Germany to India, South America, and the Colonies, under their names.

A BEAUTIFUL COMPLEXION

Is obtained by the use of Rowland's Kalydor, which allays all irritation and tenderness of the skin, removes cutaneous disfigurements, freckles, and tan, and imparts a healthy and blooming appearance to the complexion and skin. During the heat and dust of Summer especially, and in cases of Sunburn and Stings of Insects, it is of the utmost use. Price 4s. 6d. and 8s. 6d. per bottle. Ask for "Rowland's Kalydor," and see that their signature is in red ink on every bottle, as theirs is the only genuine.

WHITE AND SOUND TEETH

Are indispensable to personal attraction, and to health and longevity, by the proper mastication of food. Rowland's Odonto or Pearl Dentifrice preserves and imparts a pearl-like whiteness to the teeth, eradicates tartar and spots of incipient decay, strengthens the gums, and gives a pleasing fragrance to the breath. Price 2s. 9d. per box. Ask for "Rowland's Odonto," and see that their name is on the Government Stamp of every box.

ROWLAND'S ESSENCE OF TYRE

Never fails to produce imediately a perfect change in Red or Grey Hair, Whiskers, Eyebrows, &c., to a beautiful glossy and permanent Brown or Black, which colour remains so durable that neither washing or perspiration can remove it. Price 4s., 7s. 6d., and 10s. 6d per bottle.

All these articles have been used and justly appreciated by all the Sovereigns and Courts of Europe, the Pope of Rome, and the aristocracy of Europe during the last seventy years, being of inestimable value to those who have once used them. They are sold by all Chemists, Perfumers, and Bazaars, throughout India, the Colonies, and South American.

DR. J. COLLIS BROWNE'S
(Ex Army Med. Staff)
CHLORODYNE

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. COLLIS BROWNE was undoubtedly the Inventor of CHLORODYNE that the story of the Defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent Hospital Physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne, that they prescribe it largely, and mean no other than Dr. Browne's.—*The Times*, July 12, 1864.

The Public, therefore, are cautioned against using any other than
DR. J. COLLIS BROWNE'S CHLORODYNE

REMEDIA, USES AND ACTION.

THIS INVALUABLE REMEDY produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while Medical men extol its virtues most extensively using it in great quantities in the following diseases:—

Diseases in which it is found eminently useful—Cholera, Dysentery, Diarrhœa, Colics, Coughs, Asthma, Rheumatism, Neuralgia, Cough, Cramp, Hysteria, &c.

EXTRACTS FROM MEDICAL OPINIONS.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne.—See *Lancet* Dec. 31, 1864.

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay:—"Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after 18 month's severe suffering, and when other remedies had failed."

Dr. Lowe, Medical Missionary in India, reports (Dec. 1865) that nearly every case of Cholera in which Dr. J. Collis Browne's Chlorodyne was administered the patient recovered.

Extract from *Medical Times*, Jan. 12, 1866.—"Chlorodyne is prescribed by scores of orthodox medical practitioners. Of course it would not thus be singularly popular did it not 'supply a want and fill a place.'"

Extract from the General Board of Health London, as to its efficacy in Cholera.—"So strong are we convinced of the immense value of his remedy, that we cannot too forcibly urge the necessity of adopting it in all cases."

Beware of spurious and dangerous compounds sold as CHLORODYNE, from which frequent fatal results have followed.

See leading article, *Pharmaceutical Journal* Aug. 1, 1869, which states that Dr. J. Collis Browne was the Inventor of Chlorodyne; that is always right to use his preparation when Chlorodyne is ordered.

CAUTION.—None genuine without the words "Dr. J. Collis Browne" on the Government stamp. Overwhelming medical testimony accompanies each bottle.
